| Section 7. Handling and storage | | | | | |
| Precautions for safe handling | | | | | |
| dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothin concentrations of dusts, vapours or mists. Keep away from incompatible ma containers are always dangerous. Refer also to Section 8. Conditions for safe storage, including any incompatibilities | be properly trained regarding its hazards and its safe use. Inspect propriately. Ensure proper ventilation. Avoid breathing ng. Keep away from heat, sparks and flame. Avoid generating high terials (Section 10). Keep containers closed when not in use. Empty | | | | |
| Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks. | | | | | |
| Section 8. Exposure control | | | | | |
| Control parameters (biological limit values or exposure limit values and | source of those values) | | | | |
| Exposure limits: None available for the ingredients or the product. | | | | | |
| Appropriate engineering controls Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area. Individual protection measures/personal protective equipment Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove | | | | | |
| and wash contaminated work clothing before re-use. | | | | | |
| Section 9. Physical and c | | | | | |
| Appearance, physical state/colour Liquid, white cream | Vapour pressure Not available | | | | |
| Odour Fresh | Vapour density Not available | | | | |
| Odour threshold Not available | Relative density Not available | | | | |
| pH 6.5-8 | Solubility Miscible | | | | |
| Melting/freezing point Not available Initial boiling point/range Not available | Partition coefficient - n-octanol/water Not available Auto-ignition temperature Not available | | | | |
| Initial boiling point/range Not available Flash point >93°C | Decomposition temperature Not available | | | | |
| Evaporation rate Not available | Viscosity Not available | | | | |
| Flammability (solids and gases) Not available | VOC Not available | | | | |
| Upper and lower flammability/explosive limits Not available | Other None known | | | | |
| Section 10. Stability | | | | | |
| Reactivity | | | | | |
| Does not react under the recommended storage and handling conditions prescri | bed. | | | | |
| Chemical stability | | | | | |
| Stable under the recommended storage and handling conditions prescribed. | | | | | |
| Possibility of hazardous reactions | | | | | |
| None known. | | | | | |
| Conditions to avoid (static discharge, shock or vibration) | | | | | |
| None known. Incompatible materials | | | | | |
| Oxidizing materials; etc. | | | | | |
| Hazardous decomposition products | | | | | |
| None known. | | | | | |
| Section 11. Toxicologi | cal information | | | | |
| Information on the likely routes of exposure (inhalation, ingestion, skin a | | | | | |
| Causes mild skin irritation. Causes serious eye irritation. | | | | | |
| Symptoms related to the physical, chemical and toxicological characteristics | | | | | |
| Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing; | | | | | |
| Delayed and immediate effects (chronic effects from short-term and long-term exposure) | | | | | |
| Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available; Specific Target Organ | | | | | |
| Toxicity — Single Exposure – No data available; Specific Target Organ Tox | | | | | |
| No data available; Health Hazards Not Otherwise Classified – No data available. | | | | | |

Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀)

None

ATE not available in this document.

| Section 12. Ecological information | | | |
|--|--|--|--|
| Ecotoxicity (aquatic and terrestrial information) No data available | | | |
