## SAFETY DATA SHEET (SDS)

Section 1. Identification				
Product identifier Urine Odor Neutralizer				
Other means of identification None				
Recommended	use and restrictions on use Cleaner/Odour neutraliser			
Initial supplier		herbrooke (Québec) J1R 0X3		
		Fax : 819.791.3617		
Emergency tele	phone number/restriction on use Canada – CANUTEC 2	4 hour number 613-996-6666		
Section 2. Hazard identification				
Classification of hazardous product (name of the category or subcategory of the hazard class)				
Flammable liquid (Category 2)				
Sensitization – Skin (Category 1)				
Eye irritation (Category 2A)				
Specific target organ toxicity – single exposure (Category 3), Central nervous system				
	ments (symbols, signal words, hazard statements and preca		ry/subcategory)	
Danger H225 Highly flammable liquid and vapour.				
	an allergic skin reaction.			
H319 Causes serious eye irritation.				
H336 May cause drowsiness or dizziness.				
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P240 Ground and bound container and receiving equipment. P241 Use explosion-proof equipment. P242 Use non-sparking tools. P243 Take action to prevent static discharges. P261 Avoid				
	me/gas/mist/vapours/spray. P264 Wash hands/nails/face thoro			
	aminated work clothing should not be allowed out of the wo			
	+ P361 + P353 IF ON SKIN (or hair): Take off immediately a			
	h plenty of water for several minutes. P333 + P313 IF SKIN i			
contaminated clothing and wash it before reuse. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P312				
	you feel unwell. P305 + P351 + P338 IF IN EYES, Rinse ca			
	to do. Continue rinsing. P337 + P313 If eye irritation persis			
dioxide, chemica	al powder agent and appropriate foam to extinguish. P403 + P	233 + P235 Store in a well-ventilate	ed place. Keep container tightly	
	ol. P405 Store locked up. P501 Dispose of contents/containe	r into safe container in accordance	with local, regional or national	
regulations.				
Other hazards l	known None			
	Section 3. Composition/inform			
Chemical name	(common name/synonyms)	CAS number or other	Concentration (%)*	
Ethanol (Ethyl al	cohol)	64-17-5	60-80	
Kerosene (petrol	eum)	64742-47-8	5-10	
D-Limonene		5989-27-5	1-5	
3,7-Dimethyl-2,6	5-octadienal	5392-40-5	< 3	
1-Decanal		112-31-2	< 3	
* Statement - This	safety data sheet provides concentration range(s) instead of the actual concentration		by volume) considered trade secret(s).	
	Section 4. First-aid			
Inhalation	IF INHALED: Remove person to fresh air and keep comfor			
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT II			
	rapidly losing consciousness, or is unconscious or convulsing		r. Have victim drink two glasses	
	of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.			
Skin contact	IF ON SKIN: wash with plenty of water. (15-20 minutes) IF SKIN irritation occurs: Get medical attention. Take off contaminated clothing and wash it before reuse.			
Eye contact	IF IN EYES, Rinse cautiously with water for several minute	s (15-20). Remove contact lenses, if	present and easy to do. Continue	
	rinsing. If eye irritation persists: Get medical attention.		-	
Most important symptoms and effects (acute or delayed) Causes serious eye irritation.				
		call a doctor. Do not forget this doct	ument.	
	• I /	6		

	DATE & VERSION – AUGUST 09, 2023 VERSION 03		
Section 5. Fire-fighting measures			
Specific hazards of the hazardous product (hazardous combustion products)			
Carbon oxides and other irritant/toxic gases and fumes.			
Suitable and unsuitable extinguishing media			
In case of fire: Use carbon dioxide, chemical powder agent and appropria	te foam to extinguish.		
Special protective equipment and precautions for fire-fighters			
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper			
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.			
Move containers from fire area if it can be done without risk. Water spray	may be useful in cooling equipment and cans exposed to heat and flame.		
Section 6. Accident	al release measures		
Personal precautions, protective equipment and emergency procedur	res		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should			
wear the appropriate protective equipment (See Section 8).			
Methods and materials for containment and cleaning up			
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then			
place material into a container for later disposal (see Section 13). Contamin	nated absorbent material may pose the same hazards as the spilled product.		
Notify the appropriate authorities as required.			
Section 7. Hand	ling and storage		
Precautions for safe handling			
Wear gloves/protective clothing/eye protection/face protection.			
	ating, and that protective equipment requirements and personal hygiene		
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers			
	er ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid		
	me. Avoid generating high concentrations of dusts, vapours or mists. Keep		
	when not in use. Empty containers are always dangerous. Refer also to		
Section 8.			
Conditions for safe storage, including any incompatibilities			
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10).			
	d and not damaged. Storage area should be clearly identified, clear of		
obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.			
Section 8. Exposure cont			
Control parameters (biological limit values or exposure limit values a			
Exposure limits: CAS 64-17-5 – ACGIH – TLV-TWA 1000 ppm & PEI 64742-47-8 – ACGIH – TLV-TWA 200 mg/m <sup>3</sup> ;	L-TWA 1000 ppm; CAS 5392-40-5 – ACGIH – TLV-TWA 5 ppm; CAS		
Appropriate engineering controls			
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure			
limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.			
Individual protection measures/personal protective equipment			
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits			
are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn			
during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly			
after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash			
contaminated work clothing before re-use.			
	d chemical properties		
Physical state Liquid	<b>pH</b> Not available		
Colour Amber	Kinematic viscosity Not available		
Odour Characteristic Solubility Miscible			
Melting/freezing point Not available	Partition coefficient - n-octanol/water (log) Not available		
<b>Initial boiling point/ initial/range</b> Not available	Vapour pressure Not available		
Flammability Highly flammable liquid and vapour	Density/relative density Not available		
Upper and lower flammability/explosive limits Not available	Relative vapour density     Not available		
Flash point 13°C Closed cup TAG Particle characteristics Not available			
Auto-ignition temperature Not available VOC Not available			
Decomposition temperature     Not available     Other     None known			

## Section 10. Stability and reactivity Reactivity Does not react under the recommended storage and handling conditions prescribed. **Chemical stability** Stable under the recommended storage and handling conditions prescribed. Possibility of hazardous reactions None known Conditions to avoid (static discharge, shock or vibration) Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking, **Incompatible materials** Oxidizing materials; etc. Hazardous decomposition products None known Section 11. Toxicological information Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact) May cause an allergic skin reaction. Causes serious eye irritation. May cause drowsiness or dizziness. Symptoms related to the physical, chemical and toxicological characteristics Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness, drowsiness, nausea and headaches. Delayed and immediate effects (chronic effects from short-term and long-term exposure) Skin Sensitization - Possible; Respiratory Sensitization - No data available; Germ Cell Mutagenicity - No data available; Carcinogenicity - No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity - No data available; Specific Target Organ Toxicity — Single Exposure – Possible; Specific Target Organ Toxicity - Repeated Exposure - No data available; Aspiration Hazard - No data available; Health Hazards Not Otherwise Classified - No data available. Numerical measures of toxicity (ATE; LD<sub>50</sub> & LC<sub>50</sub>) CAS 64-17-5 LD<sub>50</sub> Oral - Rat - 7060 mg/kg & LC<sub>50</sub> - Mouse - 21000 ppm 4H; CAS 5989-27-5 LD<sub>50</sub> Oral - Rat - 4400 mg/kg; LC<sub>50</sub> Inhalation - Rat - 17000 mg/m<sup>3</sup> 4hrs; CAS 112-31-2 LD<sub>50</sub> Oral - Rat - 3730 mg/kg; ATE not available in this document. Section 12. Ecological information Ecotoxicity (aquatic and terrestrial information) No data available for this product. Persistence and degradability No data available **Bioaccumulative potential** No data available Mobility in soil No data available Other adverse effects No data available Section 13. Disposal considerations Information on safe handling for disposal/methods of disposal/contaminated packaging Dispose of contents/container into safe container in accordance with local, regional or national regulations. Section 14. Transport information UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations UN1170; ETHANOL; CLASS 3; PG II UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime) UN1170; ETHANOL; CLASS 3; PG II UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air) UN1170; ETHANOL; CLASS 3; PG II May also be shipped as a LIMITED QUANTITY in accordance with TDG. Special precautions (transport/conveyance) Environmental hazards (IMDG or other) None Section 15. Regulatory information Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR). **Environmental Canadian regulations specifics** Refer to Section 3 for ingredient(s) of the DSL Safety/health/environmental outside regulations specifics United States OSHA information: This product is regulated according to OSHA (29 CFR). United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14. United States TCSA information: Refer to the ingredients listed in Section 3. National Fire Protection Association (NFPA): HEALTH: 1 FLAMMABILITY: 3 **INSTABILITY: 0** SPECIAL HAZARDS: Refer to Section 2 & 3. HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe
