

Skunk Odors on Pets (Dogs & Cats)

Note : If the skunk has sprayed its yellowish liquid onto your pet, it's important to wash it off promptly by rinsing three times with water, as it can be harmful to their health.

Step 1 :

Product : Skunk Odor Neutralizer for Pets

1. Spray generously over the entire coat until fully saturated, avoiding the eyes.
2. Gently massage to ensure the product penetrates all areas, including the head.
3. Allow it to sit for 15 minutes.
4. Do not rinse.

Step 2 :

Product : Pet Shampoo & Skunk Odor Neutralizer for Pets

1. Thoroughly wet your pet's coat.
2. Apply the Pet Shampoo & Skunk Odor Neutralizer over the entire body.
3. Massage to create a rich lather, ensuring complete coverage, including the head.
4. Leave on for 20 minutes.
5. Rinse thoroughly with cold water.
6. For heavily affected areas, let the shampoo sit for an additional 10 minutes before rinsing.

Many reasons to love the Skunk Odor Neutralizer Duo for Pets :

-  Quick & effective.
-  Gets rid of smell completely & permanently.
-  Biodegradable 28 days (OECD 301D).
-  Non-irritating, dermatologically tested.
-  Leaves a pleasant apple blossom and cotton flower scent on coat for several days.

Skunk Odors in and outside the house

1. Fabrics

Product : Urine Odor Neutralizer

Fabrics:

- Spray evenly over the entire affected area.

Leather:

- Spray the product onto a dry cloth and wipe the surface. Test a hidden area first.

2. Hard Surfaces & Outdoor Areas

Product : (D-500) Hard, Non-Porous Surfaces Disinfectant & Animal Odor Neutralizer:

Outdoor concrete, brick, shrubs, paving stones, and grass:

- Dilute 120 ml of D-500 in 4 liters of lukewarm water.
- Using an outdoor sprayer, apply the solution over the entire area affected by skunk odor.
- Allow it to sit, and repeat if necessary.

Indoor hard surfaces :

- Dilute 120 ml of D-500 in 4 liters of lukewarm water. Use the solution to clean floors, walls, doors, countertops, and other hard surfaces.

3. Ambient air

Product : (D-500) Hard, Non-Porous Surfaces Disinfectant & Animal Odor Neutralizer:

- Dilute 60 ml in 1 L of lukewarm water.
- Spray on a clean cloth and hang on a fan.
- Run the fan for 1 hour, moving to each affected room.
