Section 7. Handling	g and storage			
Precautions for safe handling				
Wear protective gloves/ protective clothing/ eye protection/ face protection.				
Before handling, it is very important that engineering controls are operatin	g, and that protective equipment requirements and personal hygiene			
measures are being followed. People working with this chemical should

Use under well-ventilated conditions. Local exhaust ventilation system is	s recommended to maintain concentrations of contaminants below			
exposure limits. Make emergency eyewash stations, safety/quick-drench sho				
Individual protection measures/personal protective equipment				
Respiratory protection is required if the concentrations are higher than the	exposure limits. Use a NIOSH approved respirators if the exposure			
limits are unknown. Chemically protective gloves (impervious), and other protective gloves (impervious), and other protective gloves (impervious).				
be worn during all handling operations. Wear protective chemical splash go	ggles to prevent mists from entering the eyes. Wash hands/nails/face			
thoroughly after handling. Do not eat, drink or smoke when using this produ	uct. Practice good personal hygiene after using this material. Remove			
and wash contaminated work clothing before re-use.
